After the needs of Repetitive Block Ice Users have been met and, the Senior Facility Manager (SFM) may, at his sole discretion, rent otherwise unused off-peak ice time to individuals or groups at a reduced rate. This rate will be dependent on the following:

- Total number of hours to be rented
- Cost of additional staffing required to care for patrons and maintain safe ice conditions for desired activity
- Day and time of desired rental (during normal business hours or not)
- Any other special consideration deemed worthy by the SFM

Reduced price will be between \$175 - \$275 depending on above listed factors. For each such rental, the SFM will document the factors considered in determining the reduced price and these will be noted on the client's invoice.

Availability of these times will be communicated to user groups 30 days in advance.
