ACCEPT (Y/N): Y

PRIVATE ICE RENTAL

An hour of ice rental is 50 minutes of skating time and a ten minute resurface at the end of the 50 minutes skating session.

An ice resurface is always, and must be the last utilization of time rented by the current customer in order to prepare the ice for the next client. **The last resurface in the session cannot be waived under any circumstances.**

The minimum ice rental period is 45 minutes and includes 35 minutes of skating and an ice resurface at the end of the skating time. Ice time must be scheduled in 15 minute increments only.

The cost of a 45 minute session is 3/4th the cost of a standard one hour rental session.

If the **rented time** is not exact multiples of consecutive one (1) hour segments the price of the total session will be calculated as the SUM of the following:

- (a) the hourly rate of one hour rental times the number of hours rented.
- (b) the number of additional minutes of actual skating time required rounded to the NEXT quarter hour. The cost of the additional time is calculated as the number of additional quarter hours requested times 1/4 of the standard hourly rate PLUS the cost of 1/4 hour to provide the resurface for the next client of the facility.

Example: If the client requires 122 minutes of actual skating time, and the standard ice rental is \$150 per hour. The charge will be \$412.50:

| | |
|-----------------------|-------------------------------------------------|
| 2 hours @ \$150/hr | (100 minutes of skating) |
| 30 minutes @ \$75 | (to cover the 22 additional minutes of skating) |
| Resurfacing @ \$37.50 | (to prepare the ice for next client) |
| \$412.50 | |

If the client is a sophisticated and knowledgeable ice user, the Facility Manager may, **at his sole discretion**, waive the requirement for internal segment ice resurfacing. Such a waiver can only be granted if a client representative, an authorized officer of the client organization, signs a Waiver Form declaring that his organization has formally requested the waiver against the advice of the facility, and fully understands that the client organization is, and will be totally responsible for any liability issues that are caused by potentially unsafe ice conditions that result from skipping normal facility recommended ice resurfacing. However, the final ice resurface required to prepare the ice for the next client **can never be waived** at the client's request.

PRIVATE ICE RENTAL OVERRUN CHARGES

If a client overruns his rented time by more than one (1) minute past his scheduled session ending time the client will be billed for extra time at the rate of 1/2 of the standard hourly rate for each partial quarter (1/4) hour used past his scheduled end time plus the cost of a resurface (1/4 the hourly rate) to prepare the ice for the next client.

Under no circumstances will the client be allowed to overrun more than thirty (30) minutes. If it looks like the client may be planning to overrun more than 30 minutes the Facility Manager, or his designee, will announce over the PA system that the session is officially over and will begin to turn off the lights if the client members do not immediately leave the ice surface. (It should be noted that time for possible overruns should be scheduled when initially renting the ice.)
